

THE BASIN GRAVITY PARK MORNING STAR ZONE

THE BASIN GRAVITY PARK BITTERROOT ZONE

NEW TRAILS

Last summer we opened three new bike park trails and opened a whole new zone to The Basin Gravity Park! This season we have extended our famous *AROUND THE MOUNTAIN* TRAIL, adding 3 miles to your cross country ride

Enjoy a **GREEN** decent to the bottom of the Bitterroot Zone of The Basin Gravity Park or take options like **SUNDAY STROLL**, and **DIRTY BOB'S**. Once at the bottom you can pedal up *AROUND THE MOUNTAIN* or take the casual pedal back to the J.R Simplot base area via Return Road (1.8 miles).

We advise traveling with a buddy in this zone as there are no mountain services and limited cell service.

TRAIL TYPES

FREERIDE

Freeride trails (marked with an orange oval around the difficulty symbol) are bike only trails that are machine-cut and contain man-made features. Routes are enhanced with dirt jumps, ride-on features, gaps, narrow surfaces, wallrides, berms and other natural or constructed features. These trails are designed to go only in the downhill direction **JUMPING SKILLS REQUIRED**

TECHNICAL

Technical trails are for bikes only. They are esigned to embrace the rugged shape and terrain of the mountain and they utilize natural and constructed terrain. Routes are typically hand-built and feature organic obstacles and stunts such as rocks, roots, logs, drops, jumps and other natural or constructed features that require technical riding skills. Technical trails are identified by just their difficulty symbol. Downhill traffic only. Jumping skills may be required.

CROSS COUNTRY

Cross Country trails are for both hikers and bikers. These trails are mostly single track with a narrow natural trail surface that winds around obstacles such as trees, large rocks and bushes. Allowing bi-directional travel, Cross Country trails follow the contours of the mountain and can be flowing, but may also feature technical rock sections, go over tree roots, and include berms, banked turns, switch-backs, hills, climbs, and so forth. Technical skills may be required.

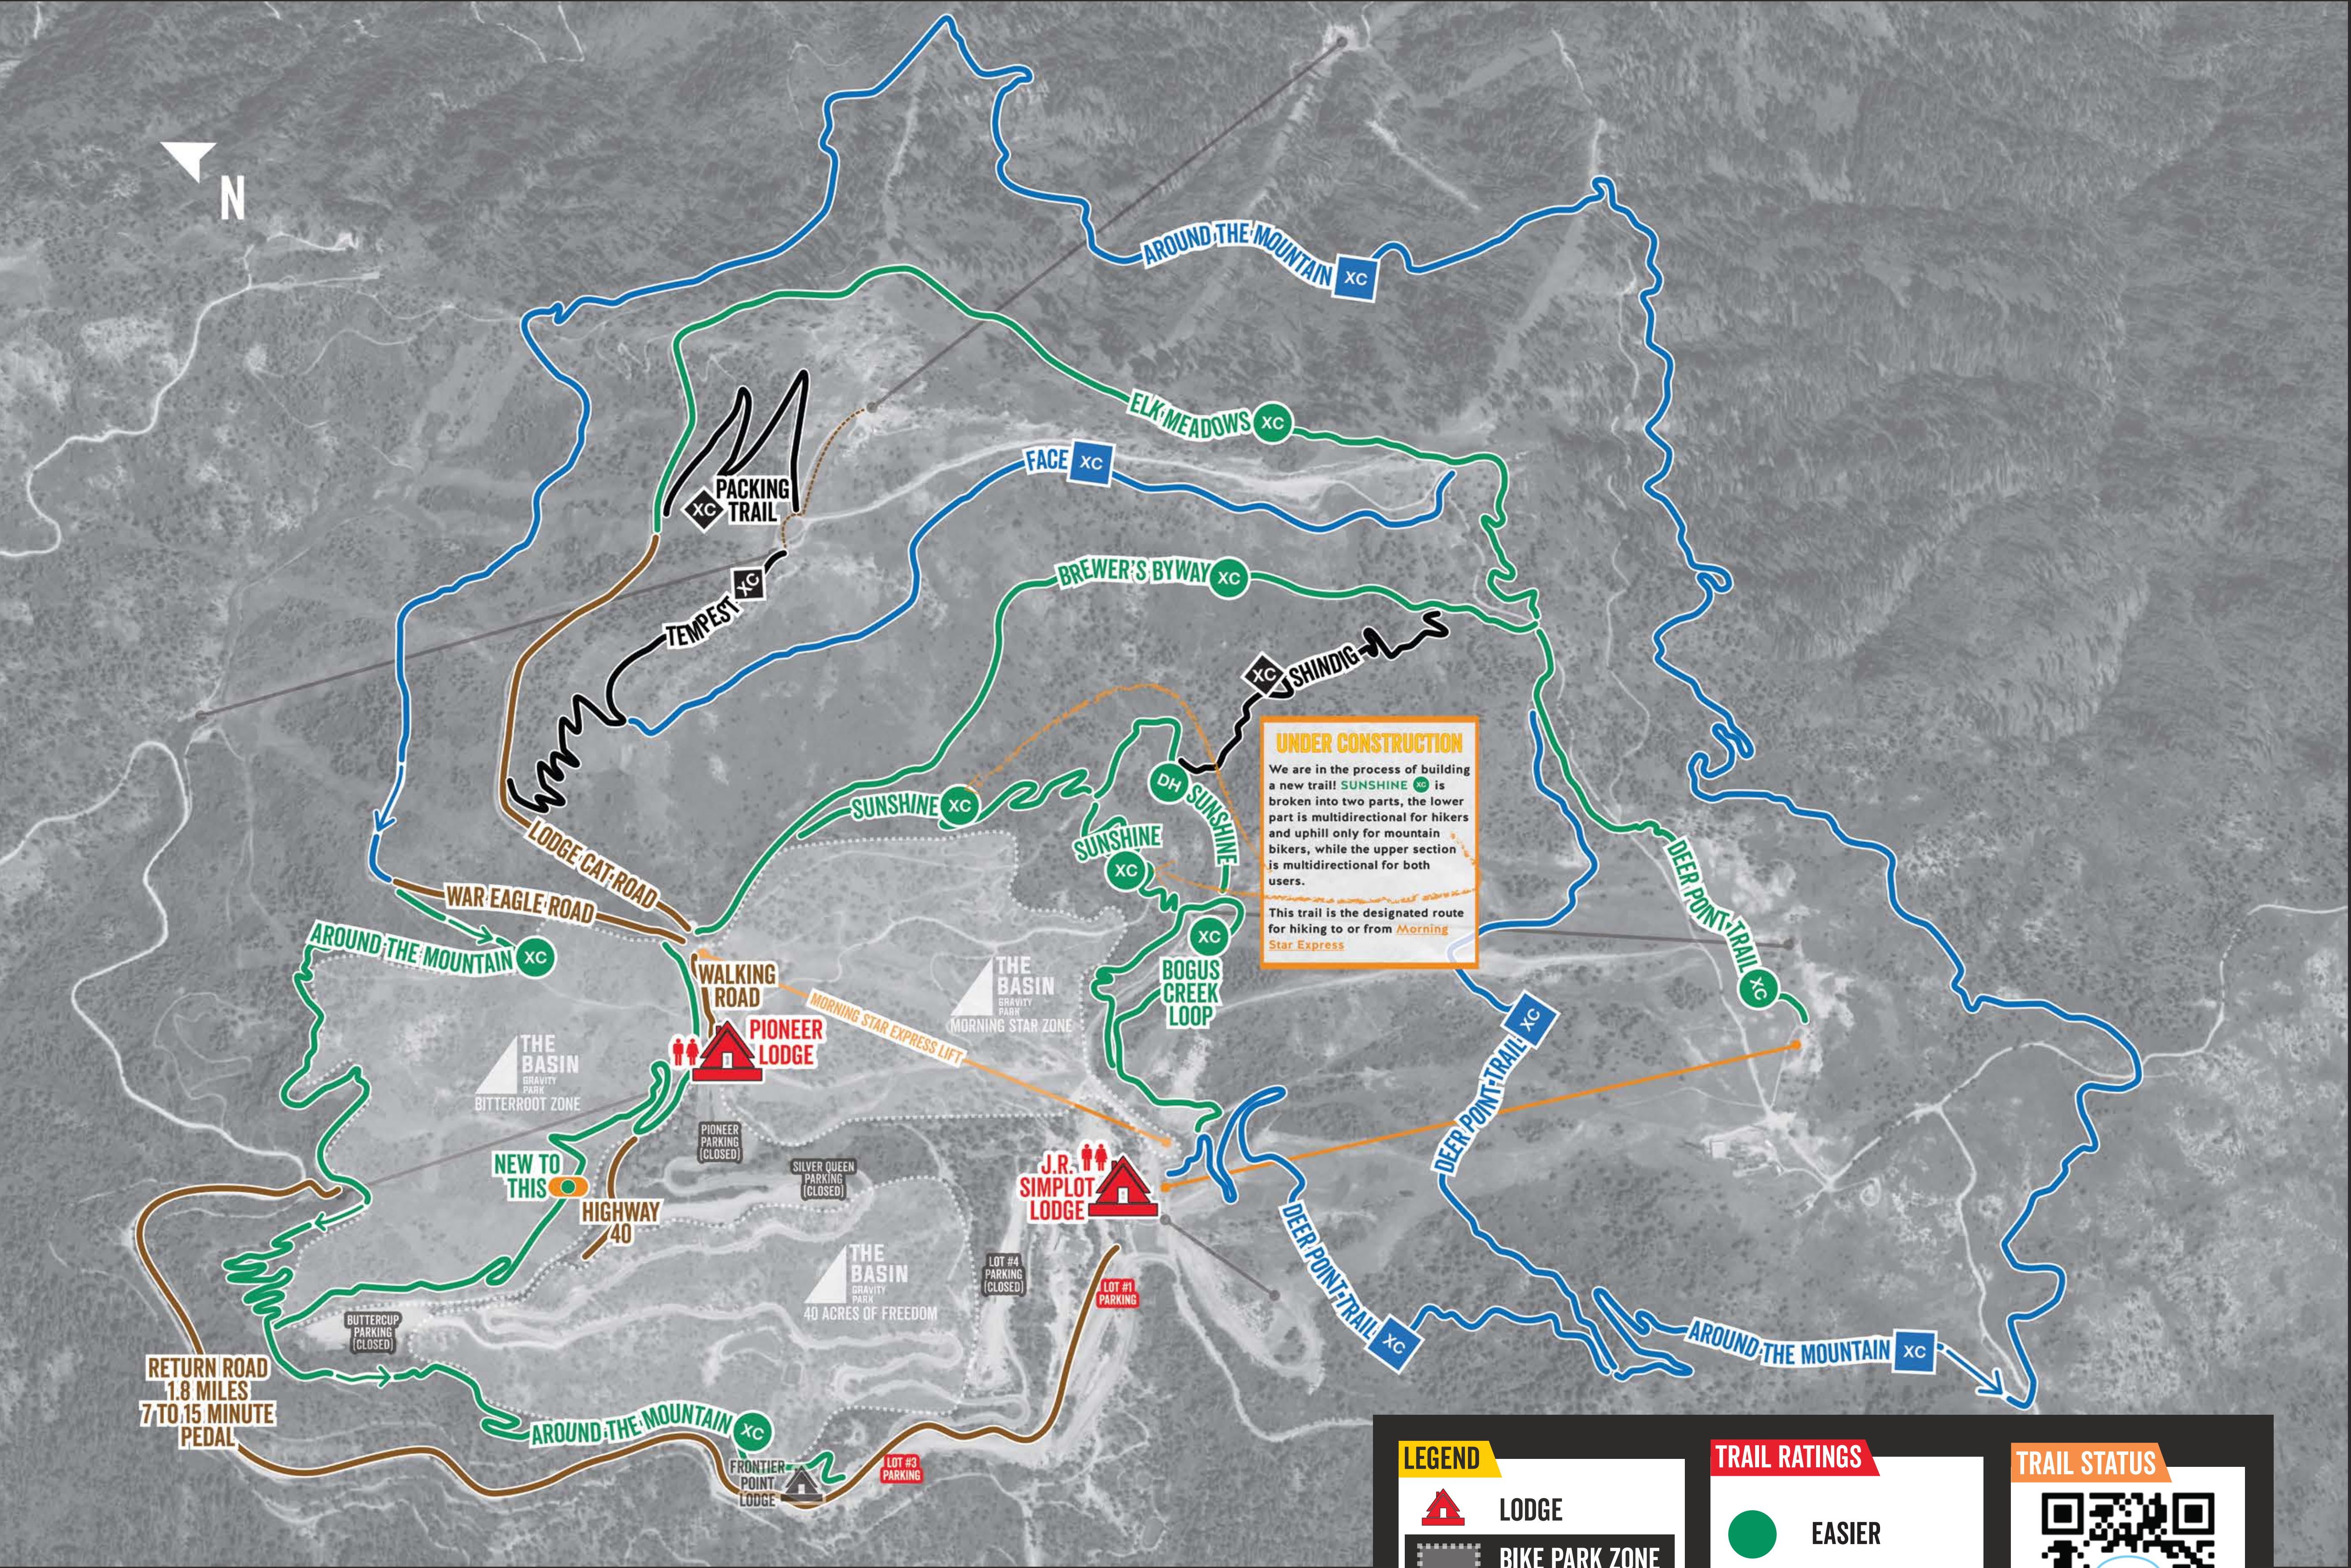

DOWNHILL ONLY

These trails tend to have similar characteristics to Cross Country trails. The main difference is downhill trails are designed to go in only the downhill direction. Some of these trails are for bikes only and are noted as such on the trail progeression matrix. Technical and Jumping skills may be required.

BOGUS BASIN CROSS COUNTRY MOUNTAIN BIKING AND HIKING MAP

UNDER CONSTRUCTION
We are in the process of building a new trail! **SUNSHINE** is broken into two parts, the lower part is multidirectional for hikers and uphill only for mountain bikers, while the upper section is multidirectional for both users.
This trail is the designated route for hiking to or from **Morning Star Express**
